

Applicant: Oak Grove Resources, LLC
Mine Name: Concord Preparation Plant
Permit Number: P- 3233 / Revision R-22

PART IV ADDENDUM TO RECLAMATION PLAN

- 1) The historic premining landuse is undeveloped/no current use and the proposed post mining landuse for this revision is undeveloped/no current use.
Increment No. 1 will have 25 acres added consisting of Basins 50 & 51, Diversion Ditch 1(2 acres), Diversion Ditch G-G' (1 acres), Coarse Refuse Disposal Area Expansion(32 acres), Basin 018 will be deleted once Basin 051 is constructed and certified. Also to be utilized for Cover Material Stockpile Area.
Increment No. 3 will be created by adding 24 acres consisting of Basin 023, Bypass Diversion H-H' (3 acres)and Diversion G-G' (2 acres). Also to be utilized for excavating soil & parent material, suitable for use as Cover Material, prior to placement of Coarse Refuse Material in Modification 3b(9.5 acres). Cover Material will also be stockpiled in this area.
- 2) No prime farmland exists within the area to be added through Revision R-22. Soil types within this new acreage are identical to the originally approved Permit P-3233.
- 3) Completeness of contouring, backfilling, and grading shall follow the same requirements as the previously approved Reclamation Schedule. All grading and contouring shall follow the approximate original contours.
- 4) Topsoil handling and revegetation for the new acreage, not previously mined, added through Revision R-22 will follow the originally approved Reclamation Plan in the Permit P-3233. For the new acreage that was previously mined, reclamation obligations are the same as those in originally approved Permit P-3233 (See I-B Revised Question 6d).
- 5) Husbandry practices and sampling to determine success of revegetation shall be in accordance with the originally approved Permit P-3233.
