**GENERAL ENGINEERING PLAN CERTIFICATION STATEMENT**

I, C. W. McGehee, a registered professional engineer, hereby certify that the information, cross-sections, data, maps, etc., contained in this general plan in Attachment III-B-2-A is true and correct to the best of my knowledge and belief.

**McGehee Engineering Corp.**

C. W. McGehee, P.E.  
Alabama Reg. No. 17067

11-10-11

Date

**ADDENDUM TO THE GENERAL PLAN**

The addendum to the general plan consists of changing the post mining landuse of Sediment basins B-N-1 and B-N-4 from temporary impoundments (undeveloped/no current use) to Permanent water impoundments for Industrial/Commercial use. Information to qualify these basins as permanent water impoundments is attached.

Slurry Impoundments No. 1, 2, 3 & 4 have been abandoned according to the Slurry Impoundment Abandonment Plans approved by ASMC. Recently we took elevations at those Impoundments and noted that all have been covered with at least four feet of the best available non-toxic, non-acid forming and non-combustible material. The current operator (PB Service, LLC.) has a DIR permit that includes the entire permit area of the Bessie Mine. The [DIR permit map](#) is attached.

**Slurry Impoundment Data**

<b>SLURRY IMPOUNDMENT</b>	<b>SLURRY ELEVATION</b>	<b>EXISTING ELEVATION</b>
No. 1	Slurry Removed/Recovered	462.63
No. 2	448.50	452.70
No. 3	402.30	408.00
No. 4	508.50	527.12
