RE: **AHC-99-1065**
Warrior Investment Company, Inc. – Corinth Mine – Revision R-18 Project
ASMC Permit No. P-3731

County: Walker *Latitude:* 33.6952 *Longitude:* -87.1878

Dear Ms. Brown,

We are in the process of applying for coal mining permit revision through the Alabama Surface Mining Commission for the area described below and would like to request comments from your office in order to proceed with this project.

Warrior Investment Company, Inc. wants to expand mining operations in Walker County, Alabama. In order to accommodate its business expansion in Walker County, Warrior Investment wants to permit 181 acres at the project site as located in Sections 29 & 32, Township 15 South, Range 6 West, on the Goodsprings, Alabama U.S.G.S Quadrangle as found in Walker County, Alabama. The proposed site location is shown on the attached 2000' scale project area map attachment "B".

The proposed project area consists of 181 acres which has been previously disturbed in the past due to past mining & logging operations. I have attached a photographic log and aerial photo showing previous disturbance and true nature of the area in attachments "C" & "D".

Therefore, based on the information provided in the attached photographic log and due to the previous disturbance of the area would you concur that the project activities will have no adverse effect on cultural resources eligible for or listed on the National Register of Historic Places.

However, should artifacts or archaeological features be encountered during the project activities, work will cease and you will be consulted immediately.

I would like to thank you for your co-operation concerning this matter and would appreciate your comments at your earliest convenience. If you should have any questions or need additional information, please do not hesitate to contact our office.

Sincerely,

McGehee Engineering Corp.

Kaylen DeFoor

Kaylen DeFoor
Project Manager,
