RE: Centennial Natural Resources, LLC. -- Lindbergh Mine No. 2
 USF&W # 2008-TA-0090 -- ASMC Permit No. 3765

Dear Mr. William J. Pearson

In regards to the above referenced project,

We are in the process of applying for an Alabama Surface Mining Commission (ASMC) permit renewal and would like to request a re-verification of a previous concurrence.

As we proceed with the permit renewal process Centennial Natural Resources, LLC. would like to re-verify concurrence for the Lindbergh Mine No. 2 site which consists of 1,049 acres located in Sections 26, 27, 34, 35, & 36, Township 16 South, Range 5 West, Sections 2 & 3, Township 17 South, Range 5 West, as found on the Sylvan Springs, Alabama U.S.G.S Quadrangle all in Jefferson County, Alabama. Also, for your reference I have attached the ASMC Permit Renewal Map, attachment "C".

The project area received an updated habitat assessment performed by McGehee Engineering in May of 2015. Prior to this latest study, this site had previously received multiple habitat studies indicating that there were no threatened and endangered species within the project area. Previous Assessments and Concurrences can be referenced under the USF&W Project No. 2008-TA-0090.

The entire project area consists of disturbed area through previous & ongoing mining operations and timber removal operations. All of the project area received an updated habitat assessment which includes a dominant vegetation plot summary for the permit renewal area. The updated habitat assessment addresses any new threatened or endangered species, Indiana bat, Northern Long-eared bat, etc., attachment "D".
