RE: **Outfalls 022P and 023P Relocation Request**
Blue Creek Mine No. 1
NPDES Permit No. AL0081477
Tuscaloosa and Fayette Counties (125 and 057)

Dear Mr. Smith:

The Alabama Department of Environmental Management has received the Outfall Relocation Request letter submitted by McGehee Engineering Corp., on behalf of Warrior Met Coal BCE, LLC.

Outfall 022P's present location, 33°, 35' 35", -87° 27' 21" is proposed to move to 33°, 35' 36", -87° 27' 19" and the drainage area will decrease from 20 acres to 18 acres. The outfall will remain on an unnamed tributary to Keith Branch.

Outfall 023P's present location, 33°, 35' 45", -87° 27' 21" is proposed to move to 33°, 35' 46", -87° 27' 09" and the drainage area will decrease from 148 acres to 41 acres. The outfall will remain on an unnamed tributary to Keith Branch.

The Department has reviewed the document and has determined that relocation of Outfalls 022P and 023P does not require a modification of the NPDES Permit. Therefore, the request is approved.

If you have any questions regarding this matter, you may contact Jasmine White at 334-270-5622 or jasmine.white@adem.alabama.gov.

Sincerely,

James H. Carlson, Chief
Water Division

RE: Warrior Met Coal BC, LLC.
Blue Creek Mine No. 1 – AL0081477
Outfall 022 & 023 Relocation Request

Dear Ms. White:

Warrior Met Coal BC, LLC, hereby requests to move outfalls 022 & 023 on the above referenced NPDES Permit. The information below lists the outfall number, permitted Lat. and Long. (in blue), and the proposed new Lat. and Long. (in red). I have also attached the 2000 scale NPDES permit map showing the permitted location (in blue) of the outfall and its proposed new location (in red).

022 Lat: 33˚ 35’ 36” Lon: 87˚ 27’ 19” (Proposed)
Lat: 33˚ 35’ 35” Lon: 87˚ 27’ 21” (Permitted)

023 Lat: 33˚ 35’ 46” Lon: 87˚ 27’ 09” (Proposed)
Lat: 33˚ 35’ 45” Lon: 87˚ 27’ 21” (Permitted)

Outfall 022P at its present location has a drainage area of 20 acres. Moving the outfall 540’ will give it a total drainage area of 18 acres. Outfall 023P at its present location has a drainage area of 148 acres. Moving the outfall 1,540’ will give it a total drainage area of 41 acres.

The receiving streams will remain the same.

I appreciate your consideration and if you need additional information, please let me know.

Sincerely,

McGehee Engineering Corp.

Jonathan Whitlock
