*Randal C. Johnson Director
A.S.M.C.
By: permitting Division*

Dear Mr. Johnson

I recently heard about C.D.M. requesting a permit to strip, on what they are calling Masseyline Mine. I strongly oppose this permit, my land borders on part of Hobert Youngbloods land and I did not receive a letter, this has been going on for at least 40 years off and on. All they do is come in and strip the valleys and move on.

Permit No: P-3971

*Sincerely,
Harold Glass*
